

Work with your **WASTE**

Care for the environment
& bottom line

www.lundbergtech.com

 **LUNDBERG**^{TECH}
Our waste handling keeps production going

Reduce waste of **VOLUME**

- Optimization by cutting and compacting
- Minimization by better material usage
- Increase ability to recycle

Reduce waste of **HUMAN RESOURCES**

- No heavy lifting
- Clean environment
- Less noise
- No manual cutting of waste

Reduce waste of **TIME**

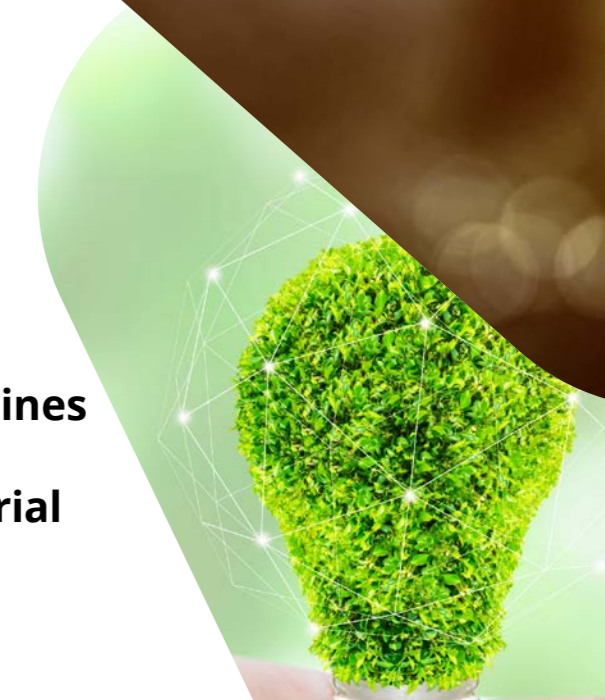

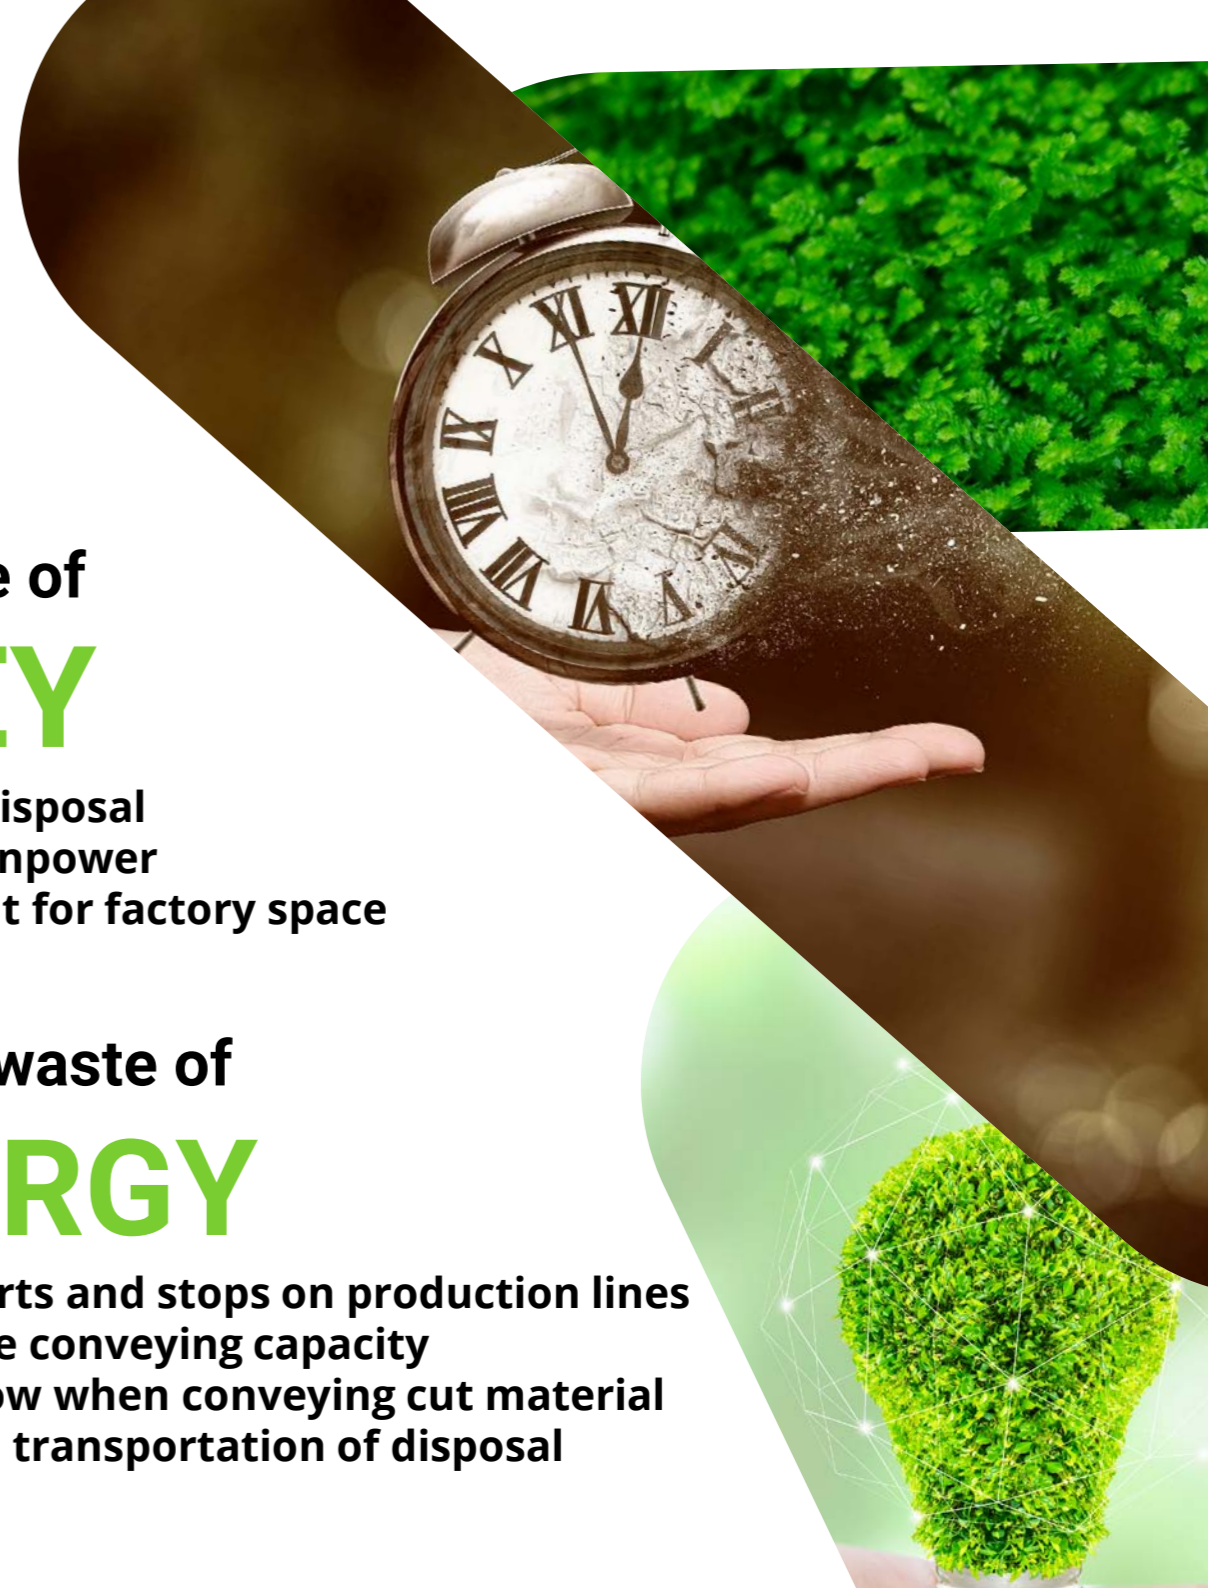

- Automated conveying
- Decreased downtime
- Increased machine speed

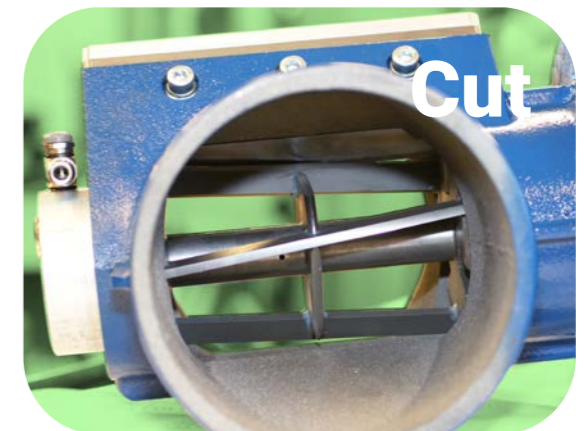

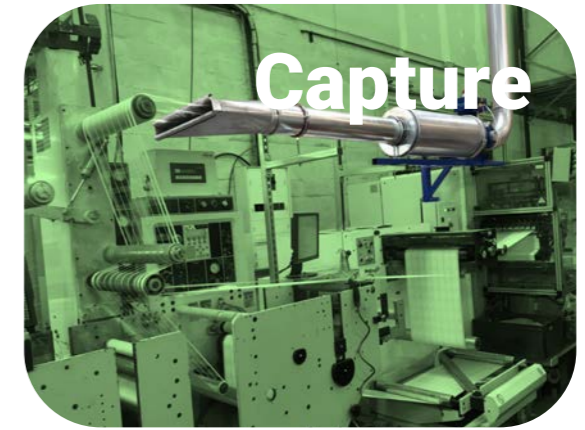

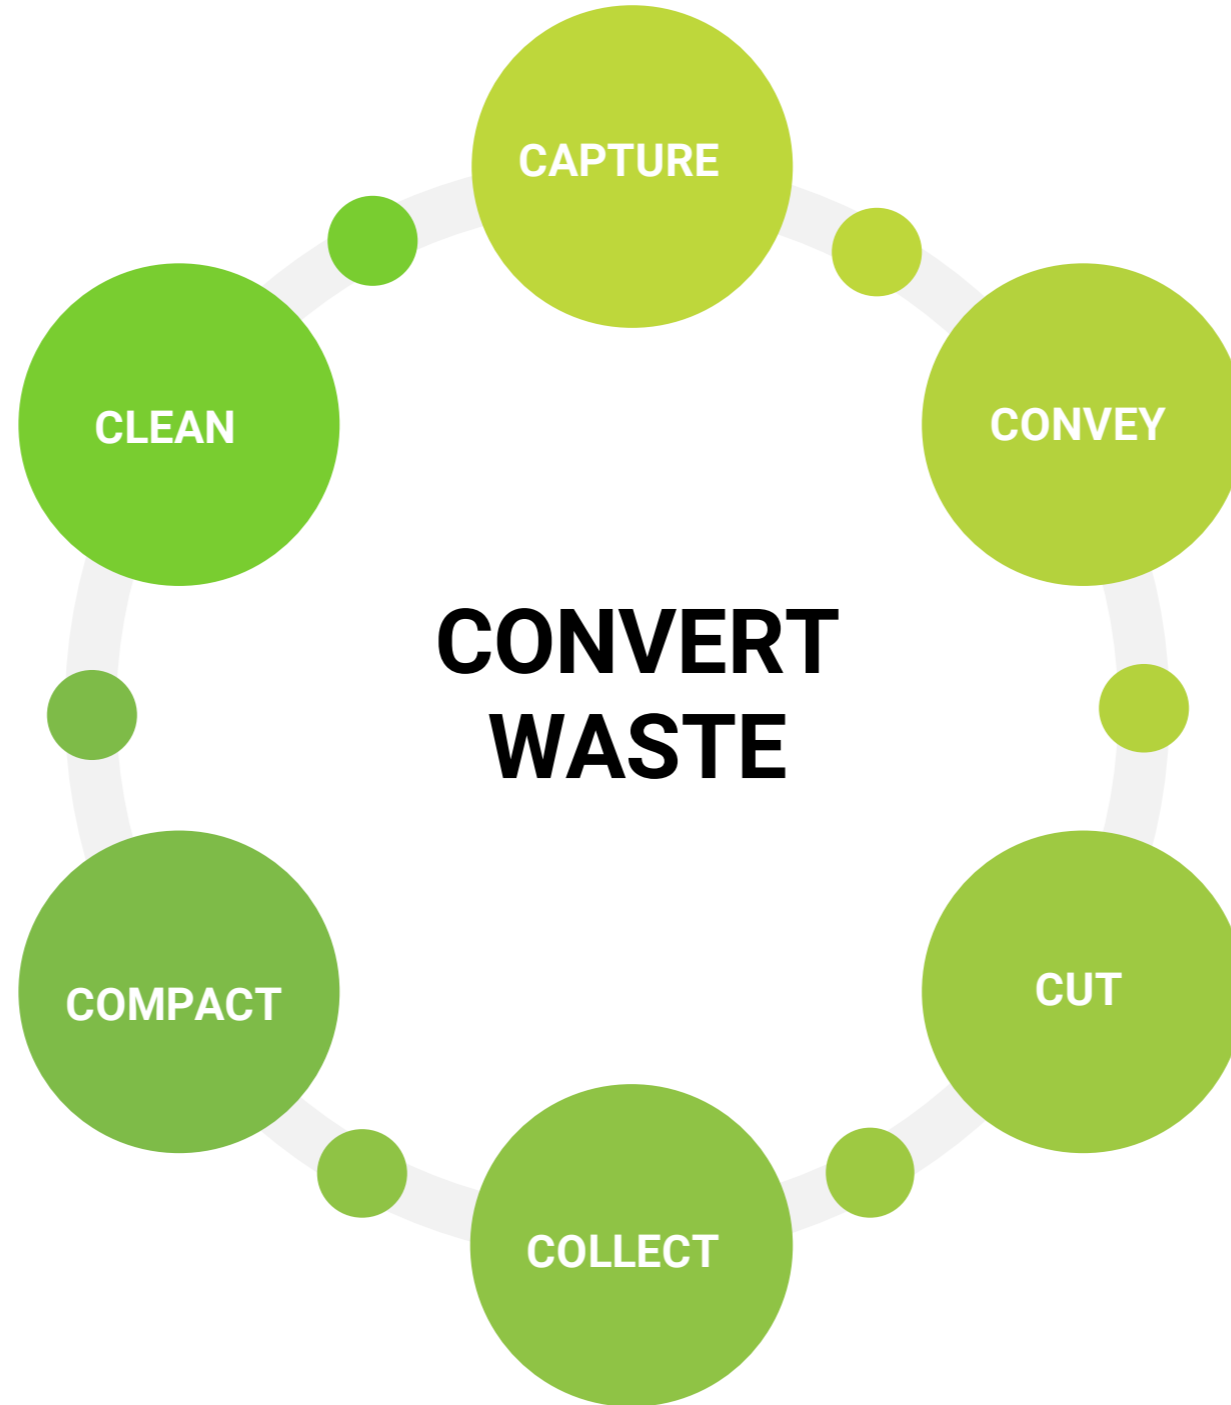

Reduce waste of **MONEY**

- Cost savings in disposal
- Reduction of manpower
- Less requirement for factory space

Reduce waste of **ENERGY**

- Fewer starts and stops on production lines
- Adjustable conveying capacity
- Less airflow when conveying cut material
- Savings in transportation of disposal

Work with

RECYCLING

- **Separation of waste material**

Work with

SUSTAINABLE PRODUCTION

- **Produce more with less resources**
